DEMORSE'S INVICORATING CORDIAL

TOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and slone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Parls, and the chief cities of Europe, as well as by eminent Physicians is this country. It is the only infallible remedy for NERYOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c., It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or svil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of —, Massachusetts Insane Hospital,

the following testimony of the names received will conclusively show:

Dr. Woodward, of —, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, precured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no ether medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputsation it enjoys was not accidentally obtained, but is

host of the most conclusive testimony to show that the gree reputation it enjoys was not accidentally obtained, but i firmly based upon its positive and apparently miraculou virtues. In all directions are to be found the happy parent of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally poten for many diseases for which it is recommended.

THE MEDICAL JOURNALS

Days not to a single instance that has been authenticated

have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION
of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarasparilias,) without deriving any benefit. I had almost given up all hope of obtaining relief, shear I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me."

Another says: "I had consulted several distinguished

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have sayed me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

dozen.

N. B.—Important advice accompanying each bottle.

That he has discovered the most certain, speedy and efficacious plan of treating

SECRET DISEASES

that has ever yet been presented to the world. By his plan, founded on observation made in the Hospitals of Europe and America, he will insure

A CURE IN TWO DAYS,

OR NO CHARGE.

No Marcury or Nausous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins, Disease of the Kidneys, Affections of the Head, Throat, Nose and Skin, Constitutional Debility, and all those horris affections arising from a Certain Secret Habit of Youth, that solitary practice, more fatal to its victims than the song of the Syrens to the mariners of Ulyases—blighting their most brilliant hopes or anticipations, rendering Marriage, etc., impossible.

A CURE WARRANTED, OR NO CHARGE.

impossible.

A CURE WARRANTED, OR NO CHARGE.
Young Men especially, who have become the victims of Solitary Fice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Marriad persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistakethe pidce.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphis, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at and-den sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, deraugement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society. NERVOUS DEBILITY.

from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upen the ruins of an emaciated and premature decline, to sound and pristine health. Ob, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

MARRIAGE, should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pligrimage; the prospect hearly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations perficined by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guara ity that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston perficit was the sufficient grants and the greatest reluctance that Dr. Johnston perficit the safe to excess heaves the arbible deeming it unpro-

TAKE NOTICE.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not full to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as phy shoemakers, mechanics, &c., advertising themserves as pay-sicians; ignorant quacks, who keep you trifling month after mouth, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full victor restored.

vigor restored.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminantly calculated to advance the great interests of isdustry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their prodecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Rallroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical. Philosophical and Optical Instruments, Cars. Carriages, Water West. and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Orioding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices or New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engivings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedis for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 123 Fulton street, New York.

KRAUSER'S PATENT CLOVER-SEED HAR-

VESTER BEFORE THE PUBLIC FOR THE FIRST TIME IS BEFORE THE PUBLIC FOR THE FIRST TIME

I TS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN Co., N. J.,) CROSS KEYS, WASHINGTON TOWNSHIP, CAMBEN CO., N. J.,
September 4, 1851.

We, the undersigned, do certify that we have seen Mr.
Krauser's Patent Clover Harvester in operation, and it has
given perfect satisfaction. It has gathered many of the
farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given
one-half for gathering and threshing.

JAMES D. TIMERIANA,
WILLIAM P. GARWOOD,
JOHN F. COOK,
WM. C. NIGROLSON,
JAMES H. COOK,
JAMES COLLINS,
JAMES BRYSON,

JOHN F. COOK, JAMES B. COOK, JAMES BRISON, PETER H. JONES. JAMES COLLINS, CHARLES LEWIS, TROMAS TUMBLESON,

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following rounts out the profitable nature of the

The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gioucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield
from 1½ to 3 bushels. Reducing it to a certainty of yielding
but 1 bushel per acre, what will it cost to gather and thresh
1,000 acres?

Cost of harvesting, Ac. 1,000 scree .4500

culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory manner in which it operates. ent, and the satisfactory manner in which it operate to by calling at E. WHEELER'S,

can do so by calling at Opposite Browns' Hotel,
N. B.—The subscriber has purchased the right for Montomery county, Maryland. june 11—tf [Intel.News&Rock.Jour.]

OCAL AND TRAVELLING AGENTS

A wanted for Popular and Useful Books just published.—
CALIFORNIA HALUSTRATED, including a description of
the Panama and Nicaragua routes, with 48 superb Tinted
Lithographs, 324 pages, 8vo.; price \$2. This work, by J. M.
Letts, has been adjudged by the unanimous voice of the
preas to be the most elaborate, practical, and intensely interesting volume that has yet been written upon this golden
theme. Since the publication of Steven's Journal of
Travels, no work has appeared that has created such a
thrilling sensation. It is pre-eminently practical, and is interspersed with incidents of the most anusing character.
In the language of one of the city editorials, "it is a perfect daguerreotype of California, taken by the light of a
noonday sun." Also, Dr. Besch's great work on Medicine,
THE AMERICAN PRACTICE AND FAMILY PHISTI
CIAN, 800 pages, 200 engravings, 8vo., sheep; frice \$5. Dr.
Besch is at the head of the eclectic practice in this country.
Such was the demand, that eighteen thousand copies of this
work were printed in one edition. Also, Dr. C. D. Hammond's work on the same principles of practice, MEDICAL
INFORMATION FOR THE MILLION, or TRUE GUIDE
TO HEALTH, 12mo, doth, 528 pages; price \$1.50 cloth, \$1
paper-covers; fourth thousand. Also, WOMAN IN IBER
VARIOUS RELATIONS—containing practical rules for
American females, for their conduct in the detail of every
domestic duty; royal 18mo., red cloth, illustrated; 324
pages; price 53 cents. This work should be in the hands of
every lady, especially the young. Such is its popularity
that nearly three thousand copies have been sold in the region of New York alone within a very few montifs. Also, a
new and very useful article of Stationery for the preservation of valuable papers, &c., needed for reference, such as
letters, invoices, &c. Its form is that of a scrap-book, with
leaves prepared for the reception of the article to be filed—
thus supersediag, with many advantages, the practice of
binding. The retail prices are as follo OCAL AND TRAVELLING AGENTS

aug 10—tf MACHINE FOR CRUSHING, GRINDING, AND AMERICAN TELEGRAPH.

Recently Patented in this Country and Europe. Recently Patented in this Country and Europe.

COCHRAN'S FLANOSPHERICAL QUARTE CRUSHING AND PULVERIZINO MACHINES are now in daily operation for the
inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they opcrate, their effective operation and result, are justly entitled
to the consideration of all parties engaged in grinding,
crushing, and Pulverking Quartz, Iron Ore, Zinc, Copper,
and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverising into the finest powder any amount of Quartz or other
earthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
subjected to any process of amalgamation that may be necessary.

The machines work and deliver wat or dry, as may be re-

subjected to any process of amagamation the may be re-cessary.

The machines work and deliver wet or dry, as may be re-quired, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Drug-gist to those of the most extensive operations in California and Australia.

gist to those of the most extensive operations and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100

each, and are soid, with the right to use them, an troub to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulcering, heredore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs, Burr, Waterman & Co., first street south of Peek Slip Ferry, every day, from 7 to was m., and from 4 to 0 p. m. For further particulars, apply to E. & J. BUSSING & CO., aug 23—2w 32 Cliff street, New York.

aug 23—2w

32 Cliff street, New York.

NOTICE.—The undersigned hereby inform the citizens of Washington and the public generally that
they have this day entered into copartnership for the purpose of making Plans, Specifications, and estimates for
Dwelling and other Houses, and to measure and value all
descriptions of builders' work. A thorough practical acquaintance with the various branches of house-building authorizes the undersigned thus to offer their services to meet
the increasing demands of the community.

Office on E street, north side, third door from 8th street:
will be open for business from 8 a. m. to 6 p. m.

All orders will be attended to promptly, and upon liberal
terms.

JOHN C. HARKNESS,

OUR PUBLIC SCHOOLS .- No. VI.

BY S. S. RANDALL.

If, then, it be true that the general and unrestricted diffusion of knowledge has a direct and even necessary tendency to prevent the commis-sion of crime by removing all inducements to evil courses; and by substituting in their stead the operation of motives leading to a diametrically opposite result; if it be true that the prevalence of sound and enlightened views of intellectual and moral education, and the general reduction of those views to practice, would result in the speedy extinction of mendicity, or would, at all events, restrict it to execut vents, restrict it to cases of rare occurrence, and such as are beyond the reach of human rem edy; if it be true that the elevation, the prosperi-ty, and advancement of individuals and of com-munities in physical and material no less than in mental and moral well-being, is uniformly in a direct ratio to their attainments in knowledge and their progress in virtue; and if it be true every hundred of the rising generation may be-come virtuous and happy, and their lives be red-dered a blessing to themselves and to the world at large, the inference would seem to be irresis-tible that the first, the most sacred duty of a Christian people is adequately to provide for the proper education of all its future citizens.

I hold, therefore, that it is imperative upon every community that elementary instruction should be freely and equally dispensed in insti-tutions recognised, sanctioned, and sustained by its authority—open at all times to the rich and the poor, "without money and without price;" that this instruction should be adequate to the communication of that degree of kutwledge, at least, which shall enable each child intelligently and efficiently to perform those duties which, in the ordinary course of human events, may hereafter devolve upon him in the intercourse of society, and to attain such further and higher acquirements as his ambition or inclination may require; and that by the proper preparation of a suitable number of teachers, thoroughly conversant with their profession, and well skilled in its practical details, a sufficient inducement may be presented to the community at large to avail itself of their services, and to bring within the schools thus established and endowed every child of sufficient age to be benefitted by their instruc-

ion and discipline. Any system less ample and comprehonsive than his, will be found both inefficient and unwise. It is not from the education of a portion only of the community, of a select few, or of the select nany, whose circumstances and station in society may place them in a favorable condition for men tal and moral culture, or from an imperfect and defective or partial development of the faculties of any number of pupils, that we are to expect those beneficent results which have been adverted to as the necessary consequence of an enlightened and

comprehensive system of universal education. How Barnum "Riz" in the World. In an essay which P. T. Barpum contributed to Freedly's "Treatise on Business," he thus alludes to the purchase of the Museum:

"In 1841 I purchased the American Museum in New York without a dollar, for I was not worth a dollar in the world. But I was never disheartened; I always felt that I could make money fast enough, if I only set my mind to it. I remember neeting a friend in Broadway a few weeks before I came in possession of the Museum. 'Well,' said I, 'Mr. A., I am going to buy the American Museum.' 'Buy it!' said he, for he knew I had no property, 'what do you intend buying it with?' 'Brass,' I replied, 'for silver and gold I have none.

"It was even so. Everybody who had any onnexion with theatrical, circus, or exhibition AGENTS, &c.

D. WILLIAMS still continues in his old business as devery style. Mechanical Drawings, embracing Architecture, Machinery in all its varieties, Design and Parcy-work, &c. Also, will attend all business entrusted to his care for owner of the Museum building, (now deceased,) a noble, whole-souled man as one often meets with, having consulted my references, who all concurred in telling him that I was a good show-THE subscriber has on hand 200,000 Laths, which he will sell low for cash. He has also a large quantity of order at reasonable prices and at the shortest notice. He is sho manufacturing Doors, Blinds, Sash, Mouldings, &c., a money-taker at the door, and crediting me, to man, and would do as I agreed, accepted my chase of the Museum collection-he appointing a money-taker at the door, and crediting me, toath is factory, on 6th street, near the Canal, where he constantly keeps on hand a general assortment of Lumber of

(Intelligence) months on which to support my family, consisting of a wife and three children. This was my own proposition, as I was determined so to live that six hundred dollars per annum should defray all the expenses of my family until I had paid for the Museum; and my treasure of a wife (and such a wife is a 'treasure') gladly assented to the arrangement, and expressed her willingness to cut the expenses down to four hundred dollars per annum, if necessary.

"One day, some six months after I had purchased the Museum, my friend Mr. Olmsted happened in at my ticket office at about 12 o'clock, and found me alone, eating my dinner, which consisted of a few slices of corned beef and bread that I had brought from home in the morning. Is this the way you eat your dinner?' he inquir d-'I have not eaten a warm dinner since I bought the Museum, except on the Sabbath,' I replied, 'and I intend never to est another on a week day until I get out of debt.' 'Ah! you are safe, and will pay for the Museum before the year is out,' he replied, slapping me familiarly on the shoulder; and he was right, for in less than a year from that period, I was in full possession of the Museum as my own property; every cent paid out of the profits of the establishment. Had I been less economical, and less determined, my expenses would have kept pace with my income; I should have lost much valuable time in going home every day to my dinner, and my present situation would probably have been very different

OPENING A MAN'S CHEST .- George G. Parker, lawyer and highly-esteemed citizen of Ashburnham, Massachusetts, was attacked with pleurisy and inflammation of the luugs, which erminated in the formation of an abscess in the chest, completely filling the right side. Dr. Hitchcock, of Fitchburg, lately performed the operadrawing off through a silver tube more than five pints of matter, which immediately afforded him

The clergymen of Connecticut, that land of steady habits, are complaining of their salaries, as altogether inadequate to the comfortable support of themselves and their families. A pamphlet has been issued by the clergymen of the Episcopal Church, setting forth the grievance. It states that the average salary of the clergy is not over \$450. A correspondent of the Boston Atlas says

there are at least four hundred dwelling-hou in Boston which are appraised at above \$30,000. There are several at \$50,000 and upward; and one house, with the land connected with it, is
